to the (pencil) point: our mission

Around here, we're a fan of analog. Let's go old school, folks! Our favorite way to honor the vintage? The #2 pencil. Our epic quest is to bring whimsy to blank pages by providing a perfect -- and super fun -- OG writing instrument that gets more people writing by hand. (DYK? It's actually good for you!) Our pencils are inspired by pop culture and each one is individually hand-stamped.
